Election Statement

I wish to promote the role of Cooperator locally, Regionally and National.

I see many opportunities for Co op Party work to help communities in this divide time in politics. I work closely with Christian and Muslim support groups.

Together we can bring people together to gain better future outcomes for us all, particularly young folk, marginalised groups in a calm and rational manner.

This Party can lead in delivering outstanding educational opportunities for Education whilst at School and beyond into all age groups.

This Party can help get those who want to become IT Literate as an enabling tool.

I have been a Labour and Co operative Cllr and have been pleased to introduce more to our ranks.

I believe our Co op members are the best of the best.

Please vote for me and let me join them.
